## Z720 & Z721 EXACT DUPLICATE EDITS

---

Effective with the April, 2006 Reinsurance Case Creation and Association Cycle the Z720 EXACT DUPLICATE FOUND and Z721 DUPLICATE DENTAL PROCEDURE Edits will be turned on for HCFA 1500 and Dental Forms.

Associated Reinsurance encounters received on or after April 11, 2006 with the begin date of service equal to or greater than July 1, 2005 will now process through the Reinsurance exact duplicate edits. Should the associated Reinsurance encounter pend for these edits it will be the responsibility of the Contractor to submit an Reinsurance Edit Override Request with supporting documentation.

The AHCCCS Reinsurance Unit will deny the duplicate CRN's when the Contractor's Reinsurance Case Summary is audited should the documentation not be received.
